

On February 13, 2021, in a stunning vote of 57-43, the Senate of the United States voted on the impeachment of Donald J. Trump. A majority of 50 Democrats and 7 Republicans voted to convict. After hearing the evidence presented by House Managers, they believed that Donald Trump was guilty as President of the United States of inciting insurrection that led to the desecration of our Capitol--our symbol of democracy--and the deaths of 6 people. 43 Republicans voted not guilty, yet as Mitch McConnell said when he addressed the people after the vote, he believed the evidence presented in the trial proved Donald Trump was indeed guilty of inciting insurrection. He voted not guilty because of procedure which he then admitted he deliberately established to give Republicans an excuse to vote not guilty. Think of that. McConnell used "procedure" he devised to allow a man he knew to be guilty of one of the worst crimes in our country to be found not guilty.

This hypocritical act is in itself a violation by McConnell and his followers of their oaths of office to defend the Constitution against enemies both foreign and domestic.

How can Americans let McConnell know that the path he has created for Republicans and led them down is wrong? It is corrupt.

A group of us have come together to pledge that we will no longer provide any money to, nor vote for Republican candidates who voted "not guilty." For us that is Lindsey Graham and Tim Scott.

As a corporate executive, you, your fellow corporate leaders, and your company may in the past have provided money to the campaigns of these individuals.
